### High Quality Audio Recording

- **Analog sources** — 78, 45, or 33 records; tapes, mini disc and your stereo system radio, too.
- **Digital sources** — Extracts CD Tracks, DAT tape, MP3, MIDI, WMA and wave.
- **Render MIDI direct to audio CD**, all digital - no cables, adjust sample rates/levels.
- **UNPACK** (adjustable), separates recorded tracks into multiple sound files!
- **CDDB support** — Internet's #1 audio CD database identifies Titles, Artists and more from commercial audio CD tracks.
- **Timer Recorder** — Records from your audio system, select time, repeat selections.

### Only DART offers this level of Digital Audio Restoration Technology

- **Noise removal**: Click, pop, hiss, scratch and high frequency suppression.
- **RealTime™** processing speeds restoration - listen to the effect while you adjust.
- **Plus**, 10 band EQ, Volume Control and Fade In/Out in the Producer tools.
- **Comparative Normalize** — automatic volume setting across all files on a disc.
- **Five DirectX plug-ins**: DeClick, Dehiss, CD-Format, TrimLength, and Resample. Use plug-ins with other audio applications.

Now restore  
**MP3** files, too

### Got Music to Burn?™

### DART CD-Recorder makes it all easy
